Secure Your Future with Blue Cove Investigations

Infidelity Investigations

Concerned about potential infidelity in your relationship? Our skilled and confidential investigators are equipped to uncover the truth and furnish you with the necessary evidence.

Surveillance

Using modern technology and techniques we collect information on an individual's whereabouts and actions. We use videography, photography, and general observation to track the subject's movements and report all findings back in an organized manner.

Criminal Investigations

Discreet investigations to uncover evidence for your criminal case. We can help find motives and interview witnesses.

Child Custody Investigations

If you're entangled in a custody battle, our investigators can collect evidence and offer testimony to support your quest for custody of your child. Our team is well-versed in navigating a wide range of custody situations.

Civil Investigations

Using proven effective investigative methods, we collect supporting evidence for civil matters. We can quickly gather evidence for your civil trial.

Asset Location

We help uncover any hidden assets owned by an individual or corporation. We conduct these investigations to gather evidence for judgement recovery, child support cases, alimony cases, and much more. Our investigators are dedicated to getting you the answers you are looking for

Skip Tracing

We utilize modern databases and research to find missing or evasive individuals. Our process servers use skip tracing to locate and confirm the proper address to serve legal papers. Skip tracing is crucial in our investigations.

Process Serving and Document Retrieval & Filing

Process service officially notifies an individual or party of their involvement in a court proceeding. All process service is performed accurately and efficiently so your case can proceed in a timely fashion. We will review and submit your documents to the county clerk to supplement a legal case. We can also pull relevant court records and case information.
